

PATIENTS KNOW BEST®
MANAGE YOUR HEALTH

Did you use PatientView to manage your kidney care?

The platform you view your data on has switched over from **PatientView to Patients Know Best (PKB)**

Patients wanting to continue to access test results and communicate with their care teams need to join PKB.

If you have not received an invitation to create a PKB account, let a member of staff know and make sure we have an up to date email address for you. An invite to register will then be sent via email.

Visit www.patientsknowbest.com/renal to find out more

PATIENTS KNOW BEST®
MANAGE YOUR HEALTH

Are you registered with Patients Know Best (PKB)?

If so, you can use it to manage your
kidney care ...

- test results
- resource library
- symptom tracker
- personal health journal
- connect wearable devices
- store important medical information
- share your record with carers or care teams

**Ask a member of staff today - make sure we
have an up to date email address for you, and
when ready, an invite to register will be sent via
email.**
